

## **Green Waves**

### **International Summer School**

Thanks to our university that we could participate on a great occasion on the first week of May. We had a view insight into the daily routine at other universities and listened to the professors lectures from other universities. We could also knew the students, and everything was completely free of charge.

Ont he first day, Monday, we arrived to Vienna. Then we had the chance to get to know each other.

All the representatives from the different universities held presentations from their countries, the energy situation, the role of renewable resources, and of course from their university. I.e.: Hungary: Óbuda University, Budapest University of Technology and Economics, Széchenyi University Győr, Slovakia, Serbia, Germany, Austria, Bulgaria

On the second day we listened a performance from the importance of solar power plants and its development in today's world helded by Professor Gerd Heilscher and Professor DI Hubert Fechner in the 'Energybase' building of University of Vienna.

Next day we travelled by ship from Vienna to Bratislava. Here dr. Daniel Curka and Dr. Michael Masaryk gave us more information from the utilization of the Geothermal Energy. After all the performances we had time to a little sightseeing and then went back to Vienna.

On Thursday we travelled back to Hungary, to Győr. Here we saw a presentation of the Sustainability on corporate level from Professor Dr. András Torma, and after we had an excursion to Pannonhalma Abbey together with Professor Dr. Éva Rácz.

On the last day we took part on a few lectures in Budapest. At first in the Obuda University Budapest Professor Dr. Melinda Majláth held a presentation from the Green Marketing, and secondly Professor Dr. Péter Kádár spoke about the Environmental Effects of the renewable technologies and Externalities of the power industry.

In the afternoon in the Budapest University of Technology and Economics we listened the last two performances of Energy project management and Energy policy from Dr. Zoltán Korényi and from Dr. András Fazekas.

We were glad to have the possibility to took part on this event and hopefully more people can go to this kind of programs in the future.
